

Tikal National Park in Petén, Guatemala, March 13, 2001. (Data from the IKONOS satellite, courtesy Space Imaging.)

Insets: Comparison of high-resolution Landsat imagery (left) and higher-resolution IKONOS imagery (right) over Tikal National Park in Petén, Guatemala. The high-resolution capability of IKONOS data reveals detailed temples and plaza areas. (Data from the ETM+ instrument on the Landsat satellite and from the IKONOS satellite.)
